Who We Are

KCRHCA was established in 1977 as a nonprofit, nonsectarian, voluntary, private organization whose primary focus is the general welfare of the citizens of Greater Kansas City.

KCRHCA believes that Home Care is an essential element in the continuum of quality health care. Our membership is comprised of home care companies and support organizations providing services in Kansas City and surrounding communities. Our mission includes working to enhance and build upon a strong regional home care community. KCRHCA works closely with statewide and national associations to advocate for home care patients and issues that both benefit and protect them.

Our Mission Statement

Together, through collaboration, education and advocacy, we create a strong regional home care community.

The KCRHCA Difference

Our membership is comprised of agencies providing services in the home setting in the Kansas City metro and surrounding areas. KCRHCA fosters operational efficiency, advocacy opportunities, and opens new avenues for growth within healthcare. KCRHCA...

- Screens and approves all members, ensuring good standing with state and national licensing agencies.
- Provides a platform to advocate for practical, beneficial policy changes at the local, state and national levels of healthcare.
- Provides professional education and support for clinical staff and volunteers of member organizations and education on home care for community groups.
- Builds credibility and visibility for individuals and organizations of KCRHCA across the KC metro area.
- Provides collaboration opportunities, expanded referral networks, shared resources and access to innovative care solutions.
- Provides opportunity for committee involvement for growth, networking and educational opportunities in home care.
- Provides annual recognition of outstanding service for individuals of membership organizations.

What We Do

Home Care (formerly Private Duty)

Home Care, formerly known as Private Duty, provides compassionate, professional caregivers dedicated to supporting a wide range of needs both at home and beyond. These caregivers lovingly take on multiple roles, offering companionship, assistance, cooking, housekeeping, and transportation, all while helping with daily activities and medication reminders.

Home Health

Home Health Care lovingly offers professional services like nursing, physical, occupational, and speech therapy right in the comfort of the patient's home. Our heartfelt aim is to support recovery from illness or injury by providing attentive wound care, nurturing strength rehabilitation, conducting essential lab tests, and offering compassionate education on medications or new diagnoses.

Hospice

Hospice offers heartfelt and compassionate care, along with unwavering support, to patients and their families during the challenging journey of facing an incurable advanced illness. This care is lovingly provided in any place the patient considers home, focusing on gently easing symptoms during the final months, weeks, or days of life. Our aim is to cherish and make the most of every precious moment together.

What We Do

(continued)

Home Infusion

Home infusion therapy encompasses the compassionate and expertly skilled administration of medication, whether it be delivered intravenously, subcutaneously, or through a variety of other essential methods. This intricate process is carried out by professional nursing staff who are not only highly trained but also dedicated to ensuring the utmost care and precision in every step of the treatment.

Medical Equipment

Durable Medical Equipment (DME), also referred to as Home Medical Equipment (HME), provides essential medical equipment specifically intended to assist individuals who are ill or recovering from injuries, ensuring they receive the care and support they need in the comfort of their own home. Trained staff are available to set up and provide training, ensuring users and caregivers understand how to operate and maintain the devices safely and effectively.

Honorary Members

Honorary members are cherished community partners who, while not providing in-home care directly, wholeheartedly share and support the mission of KCRHCA. Together, we collaborate to make a meaningful difference.

Our Trusted Members

(listed alphabetically by service type)

Home Care

formerly Private Duty

At Arosa, we provide elevated care management and caregiving services that bring peace of mind to families and improve the quality of life for older adults. Our dedicated team delivers personalized, compassionate support tailored to each client's unique needs—from assistance with daily living to more complex care. By integrating health, emotional well-being, and social connection, we create a nurturing environment where clients thrive and families can feel confident and supported. Our mission is to make aging at home a safe, positive, and enriching experience for every family we serve.

For nearly 20 years, Crystal HomeCare has helped Missouri families navigate care at home with compassion, experience, and personal attention.

We understand that inviting someone into your home requires trust. Families deserve clear answers, thoughtful support, and caregivers who feel like the right fit from the start.

That's why we stay involved throughout the process, helping families navigate care with more clarity and confidence.

- Hands-on guidance navigating Medicaid services
- Thoughtful caregiver matching based on personality and care needs
- Ongoing communication with families and care teams
- Support through referrals, assessments, and service coordination

Home Care

formerly Private Duty
(continued)

Private Home Care delivers a highly personalized, relationship-based approach to in-home care, with a specialty in around-the-clock support including both 24/7 and live-in care. We provide comprehensive, professionally aligned services such as post-hospitalization support, Parkinson's, Alzheimer's and dementia care, and compassionate end-of-life care—ensuring continuity, dignity, and peace of mind for clients and families.

One of our greatest strengths is our ongoing care management and oversight model, with dedicated Care Managers who remain actively involved to anticipate needs, adjust care, and support long-term success at home. This approach is reinforced through intentional caregiver matching and Virtual Care solutions that enhance safety, communication, and continuity—allowing clients to not only remain at home but truly thrive there.

Seniors Helping Seniors KC Metro South gives seniors the gift of independence through heartfelt companionship and daily in-home help. Through our proprietary process, we match seniors with mature, active caregivers who have a passion for serving others and building lasting friendships. These connections share a mutual interest in hobbies, activities and much more.

The Seniors Helping Seniors® mission is based on two simple ideas:

- Seniors can help each other age more happily and gracefully.
- Seniors who provide help, and those who receive it, benefit equally.

When facing a life-limiting illness, true compassion — strengthened by physical, emotional and spiritual support — can bring more moments of life to patients and their loved ones. This belief is at the core of hospice care at Hospice by John Knox Village (formerly Village Hospice).

Our local, not-for-profit agency offers four levels of hospice care: Routine Home Care, Continuous Home Care, General Inpatient Care, Respite Care. The level of patient-centered care provided is based on unique and individual needs – in the setting that is most comfortable. As needs change, transitions keep patients at the most appropriate level of care, as defined by the Medicare Hospice Benefit.

Hospice care is a specialized form of end-of-life care that prioritizes pain management, symptom control and overall well-being. Hospice care is a compassionate and supportive option for people nearing the end of their lives.

Hospice care brings together a team of specialized experts, including doctors, nurses, social workers, spiritual advisers and trained volunteers. Because hospice is an approach to care, it is not tied to a specific place. Regardless of the location, our team provides expert medical care, pain management and emotional and spiritual support. We tailor our support to each person and extend that assistance to family members and caregivers, so they can focus on their loved one.

The goal of hospice is to provide comfort, dignity and respect during a challenging time. At The University of Kansas Health System, our team's mission is to meet the physical and emotional needs of the terminally ill and their families.

VITAS[®]

Healthcare

Since 1978, VITAS has empowered patients and families as they navigate end-of-life care decisions.

- 24/7 Access to Care - We give healthcare professionals, patients, and families peace of mind with around-the-clock availability for admissions or clinical support.
- 45+ Years of Success - As a pioneer and national leader, VITAS helped establish the Medicare Hospice Benefit and has set the standard for hospice and palliative care ever since.
- 12,000 + Caring Professionals - Our interdisciplinary care team members collaborate to ensure patients and families feel seen, heard, and supported, at every interaction.

Serving our Kansas City neighbors for over 130 years. Care is in our DNA, and we are committed to providing it to our neighbors to help them meet their health goals and keep our entire community healthy.

Our history

Since 1889, we have served the Kansas City community wholeheartedly with the aim of providing quality nursing to help our neighbors meet their health needs. Read the story of how that commitment has informed our work ever since.

Our future

The future of VNA looks brighter than ever as it has become an affiliate of Midland Care Connection. This partnership has strengthened VNA, allowing it to continue offering many of the same great services that the community has come to rely on. VNA will retain its unwavering focus on providing top-tier health care services, ensuring that all patients receive the care they need, regardless of their ability to pay. Together, VNA and Midland Care Connection are committed to enhancing the quality of life for those they serve, fostering a healthier and more supportive community.

Other

iMOVE PT®

A MOBILE PHYSICAL THERAPY PROVIDER

iMove PT KC stands out in the healthcare market by bringing physical therapy directly to patients through mobile, in-home services, eliminating barriers of transportation and accessibility. Beyond rehabilitation,

iMove PT KC integrates wellness, safety, and preventive strategies, positioning themselves as partners in long-term health rather than just short-term recovery. This holistic, patient-centered model makes them a distinctive and trusted resource in the community.

Boost KC (formerly the Assistance League of Kansas City) has served the Kansas City area for decades. We are an independent, volunteer-run, 501(c)(3) nonprofit organization with the ability to make decisions locally and amplify our impact.

Our name reflects the spirit behind our work: helping people move forward with dignity and hope. A few of our programs that serve our community are:

- Threads2Thrive - providing students with new clothing and essentials.
- Boost Bundles - resource kits designed for survivors of assault with flexibility to meet urgent needs.
- Boost VolunTeens - our teen volunteer service group
- Senior Outreach - focus on reaching seniors in the area with friendship and resources.
